Experience

Martin has over ten years of international experience in providing assurance and business consulting services. He has been exposed to SOX compliance, external and internal audit services and risk management services across Europe and Australia. He has worked 5 years at 'Big Four' and been involved with various assignments in the oil and gas industry, utilities and mining and manufacturing.

Martin has experience in governance and project management audits, including change management, business continuity planning, benefit realisation, risk identification and management.

He has a capability of performing compliance assessments based on relevant legislations and guidelines. He is responsible for managing end to end audit activities and act as key client liaison on a number of engagements.
